SECTION 1	DETAILS OF PROCUREMENT AGENCY
NAME	INDUSTREE CRAFTS FOUNDATION
REQUEST FOR QUOTATIONS TITLE	Film Development
OVERALL PROJECT SUMMARY	Industree Foundation with support from USAID (WEE) has initiated the Producer-Owned Women Enterprises (POWER) project which focuses on increasing economic opportunities for women from marginalized communities. Project aims to create 37 women-owned enterprises that will connect women producers to commercial supply chains in natural and biodegradable products such as leaf plates, baskets, mats and bags from tree leaves, bamboo, banana bark and other natural fibers. The states selected for the implementation of the POWER projects are Tamil Nadu, Karnataka, and Odisha.

<p><b>COMPANY DESCRIPTION</b></p>	<p>Established in 2000, Industree Foundation holistically tackles the root causes of poverty by creating an ownership-based, organized creative manufacturing ecosystem for micro-entrepreneurs. Industree works with a vision to co-create an ecosystem with farmers, artisans, and stakeholders, creating a new way of building sustainable enterprises and work culture. Its mission is to work towards economically and socially empowering women from both agriculture and non-agriculture occupations. This is done by enabling them to equitably engage with global and local markets through producer-owned enterprises, thus becoming wealth creators for themselves, creating resilience to life crises, and helping society meet its sustainable development goals. Our approach has tripled the incomes of artisans in non-farm occupations by leveraging their artisanal skills and integrating them into the creative industries sector, reaching women artisans across India and Africa.</p> <p>Industree Foundation has built an ecosystem that holistically tackles the root causes of poverty by creating an ownership based, organised on and off farm SME ecosystem for women micro-entrepreneurs. Their works to ensure that communities can become part of mainstream value chains, and have greater control over their economic security and resources has led to significant social gains such as social security, better health care, improved resilience to crisis and overall resilience. Having already impacted 1,75,000 producers directly and indirectly, the aims to strengthen millions of producers (the majority of whom are women) to achieve a triple bottom line impact, i.e economic impact (including regular work, increased wages and financial stability), social impact (improved agency and voice for women at home and in their communities, and educational opportunities for the next generation) and environmental impact (focusing on natural fibre and organic raw material value chains, building new circular economies). Industree works extensively in Textile and Lifestyle value chains with great potential to herald in supply chains of the future that have positive social and environmental footprints. This is done by enabling producers to equitably engage with global and local markets like IKEA, H&amp;M and FabIndia through producer-owned enterprises, thus becoming wealth creators for themselves, resulting in resilience to life crises and helping society meet its sustainable development goals.</p> <p>Apart from this Industree has incubated and accelerated two profitable and globally compliant producer-owned enterprises Greenkraft and Ektha Apparel, which have generated USD 10M+ in combined cumulative revenue and has made inroads with both national and global brands through the two producer companies it has incubated for market connect.</p>
